Fisk Mfg. Co's Japanese Soap

Is manufactured of the purest Oils and Tallow of our own refining. It is a **PURE SOAP**, free from the many poisonous adulterations that are put into soaps at the present day to give them weight, etc. Many persons are suffering to-day on account of using impure soaps. The Japanese is adapted to the Laundry, Toilet, and Bath. It has no equal. Patented October 11, 1875, and September 18, 1877

THE JAPANESE

FISK MANUFACTURING CO.

SPRINGFIELD, MASS.

(Registered Oct. 11. 1875.)

Fisk Manufacturing Co.'s "**Extra Pale.**" Cut full weight. Two, three, and four pound bars. We maintain for it the justly merited reputation of being the "Best and Cleanest Bar Soap in America." Most bar soaps now in the market are composed almost entirely of rosin, poisonous and filthy grease, loaded with ground marble, silicon, pipe clay, lime, soda, caustics, etc., many being like the pressed cakes, wrapped, preventing them from drying and showing their true properties.

By using such soaps you destroy the clothes—a single garment, perhaps, costing more than a yearly supply of Fisk Mfg. Co.'s Pure Soaps, which do not yellow, rot, cut or grind the clothes.

Ask your grocer for them. Let them become hard and dry before using them. Look to their clothes-saving quality, which is true economy and cheapness.

SPRINGFIELD STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets, avenues or places run from or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of Main street No. 310 comes, turn to Main street, and you find that Worthington street intersects at 298, right side, and Bridge street at No. 340, showing that No. 310 comes on the right side of Main street between Worthington and Bridge.

FIRE ALARM TELEGRAPH.

Instructions to Key Holders.—Key holders, upon positive information of a fire, will unlock the box, and, if the bell or the small bell in the box is not striking, pull the hook down to the end of the slide once and let go immediately. Do not strike an alarm when the bells or the small bell in the box is striking, for in that case the alarm is already striking, and to give a second one would confuse the firemen. After giving an alarm, remain, if possible, until the steamers arrive, to direct them to the fire. If you hear no clicking sound in the box after pulling the hook, go to the next box, and give the alarm from that.

Do not give an alarm for a fire at a distance, *nor for a burning chimney.* Do not strike the alarm more than once from the same box. Be sure the box is locked before you leave it.

Second-Class Matter—Mailable matter of the second-class embraces all newspapers and other periodicals, publications which are issued at stated intervals and as frequently as four times a year, and are within certain conditions. (For these conditions apply at the office.)

When sent as transient matter, by other than the publishers, one cent for each four ounces or fraction thereof.

Third-Class Matter—Mail-matters of the third-class shall embrace books, circulars and other matters wholly in print; proof sheets, corrected proof sheets and manuscript copy accompanying the same, and postage shall be paid at the rate of one cent for each two ounces or fractional part thereof, and shall be fully prepaid by postage stamp affixed to said matter.

The fee on any registered matter, domestic or foreign, is fixed at eight cents on each letter or parcel, to be affixed in stamps in addition to the postage. Two or more letters or parcels addressed to or intended for the same person cannot be tied or otherwise fastened together and registered as one.

Special Delivery—A special ten cent stamp affixed to any article of mailable matter in addition to the ordinary postage insures its delivery by special carrier, immediately upon its arrival at the office of destination, between the hours of 7 a m and 11 p m at free delivery offices and 7 a m to 7 p m at other offices. If not, write for our descriptive circular and price list of the "Chadwick." Saves Time, Money, Annoyance, and Insures Good Copies every time.

THE IMPROVED
Chadwick Copying Book
TRADE-MARK.
PATENTED OCTOBER 16, 1888.

These Books are made waterproof at binding and corners, and are provided with moistening pad and oil sheets, by the use of which a number of pages can be kept moist and ready for immediate use, DISPENSING ENTIRELY WITH WATER POT, BRUSH AND WET BLOTTERS. The pad is first wet with water, then placed in book, back of twenty or more sheets, and put in press until required for copying, when sheets will be found uniformly and thoroughly moist and VERY SUSCEPTIBLE TO ANY COPYING INK.

The back of the book being waterproof prevents the moisture from working into the binding or into leaves already copied on, and by similar treatment of corners leaves do not stick together and prevent rapid handling. The paper in these books is of extra strength, so they can be readily handled without tearing.

WE MAKE ANYTHING WANTED IN THE LINE OF LETTER OR INVOICE COPYING BOOKS.
